

## DIVORCE DECREE

**Definition of Divorce:** a complete separation between two things;  
severance

On this day \_\_\_\_\_, We decree that we wish to  
divorce ourselves from the past marriage of \_\_\_\_\_ years.

We have decided to divorce ourselves from the past pain, disappointments,  
hurts, sad memories, penetrating hateful words, unkind actions,  
abandonment, unfaithfulness (emotional or physical), for putting others first,  
hurt feelings, addictions, any and all damage inflicted and all unforgivable  
actions.

We are choosing to divorce the past, and all the negative memories  
attached to this decree. However, we choose **not** to divorce each other. We  
choose to keep and cherish all the positive memories and events from our  
past.

This marriage and all the negative memories must die in order for the “New  
Marriage” and the “New US” to rise.
